

February 2026

Wessels Company
101 Tank Street
Greenwood, IN 46143

Subject: 2026 PRICING NOTICE

March 1st, 2026, prices will see a 5% increase across all product categories.

To further support our partners, we are **removing tariff surcharges** and **increasing our online order discount from 3% to 4%** for orders placed directly through wesselsvessels.com.

As demand accelerates in [data center–driven markets](#), Wessels Company remains committed to delivering competitive pricing and industry-leading performance across our expanding portfolio. This includes [Thermal Energy Storage \(TES\) tanks](#) engineered for high-load, mission-critical cooling applications, along with advanced [WesFlo™ filtration](#) and [stainless-steel air purging systems](#) designed to protect uptime and extend system life.

Wessels continues to invest in stainless fabrication capacity, filtration technology, and smart vessel integration to meet the performance demands of modern data centers and high-efficiency mechanical systems. In addition, Wessels will soon launch a direct API connection between wesselsvessels.com and our ERP system, enabling instant order entry with real-time processing, and live tracking updates.

Thank you for your continued partnership. We look forward to growing together in 2026.

Sincerely,

James J. Fuller
President
Wessels Company
